If you don't meet these conditions

If you miss a payment, or don't meet any of your other tax obligations, you may default on your payment plan. If this happens you'll have to pay the full amount plus any accrued general interest charges (GIC) immediately to avoid further collection action.

How interest affects your debt

Each day your debt isn't paid it may increase. This is because general interest charges (GIC) may apply on any overdue balance until the whole amount is paid. To find out more about interest including the current rate visit ato.gov.au/gic

Finishing your payment plan

The final amount you need to pay may change depending on the interest rate and payments you have made. For options on how to check your account online at any time, visit ato.gov.au/howmuchyouowe

We can use any tax credits or refunds to reduce your tax debt. These amounts won't replace your planned payments, but they will help you to finish your plan earlier.
